

R&E Sole Source

May 3, 2017

NYSERNet is the only provider of dedicated Research and Education network connectivity to educational and research institutions in New York State, and is the regional aggregator for access to Internet2's national research and education network.

The NYSERNet Research & Education Network is a specialized resource that supports the missions of New York's research and education community.

NYSERNet R&E Network Service Features

- NYSERNet Research and Education Network connectivity.
- Access to NYSERNet's statewide high-performance network.
- Egress to the Internet2 national R&E network and to other networks with which NYSERNet peers, including CA*Net, ESNet, MAX, MAGPI, NoX, TWAREN, and ORION.
- Eligibility to apply for participant status and access to Internet2's national R&E network under NYSERNet's Unified Community Anchor Network agreement with Internet2.
- Implementation service, 24X7 NOC, and customer service.
- Annual, bi-annual, and quarterly billing options.
