# Information Bulletin
# ARIN Agreement Fee Changes For Legacy Resources

Before the American Registry for Internet Numbers (ARIN) existed, institutions were allocated IP addresses without an ARIN agreement. Today, ARIN offers basic services for free, but requires an agreement and annual fee for advanced offerings like routing security. Legacy resource holders currently pay discounted fees; however, if you don't have a Legacy RSA (LRSA) in place by the end of 2023 you will be subject to the much higher standard fee schedule.

How To Check LRSA Status
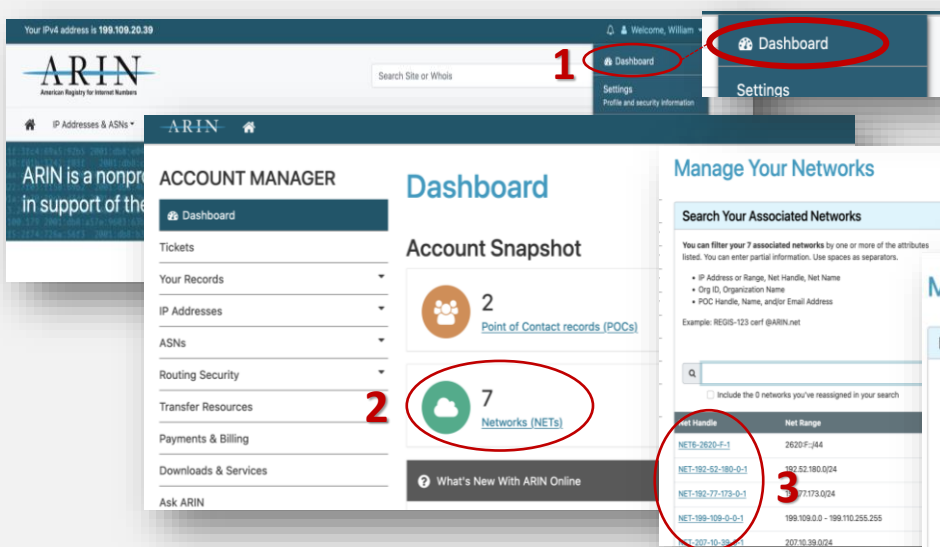

1. Log in to the ARIN website at **https://www.arin.net**
2. Select **Dashboard**
3. Select **Networks (NETs)**
4. Select **Net Handle link**
5. Review **RSA/LRSA** status
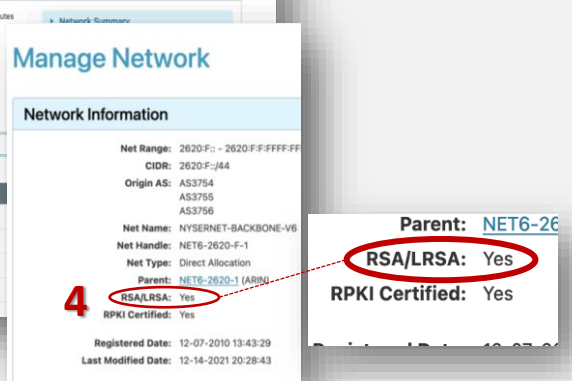

Steps For Getting an LRSA in Place

Follow the step-by-step instructions on the ARIN website: https://www.arin.net/resources/guide/legacy/

Service Benefits Matrix

Services Provided to Legacy Number Resource Holders	No LRSA Agreement	With LRSA Agreement
Maintain unique registration in Whois/RDAP	✓	✓
Update and manage publicly available data in Whois/RDAP	✓	✓
Manage reverse DNS delegations	✓	✓
Maintenance of registry records (ARIN Online)	✓	✓
Resource Public Key Infrastructure (RPKI) access	✗	✓
DNS Security (DNSSEC) access	✗	✓
Internet Routing Registry (IRR) access	✗	✓
List Resources on ARIN's Specified Transfer Listing Service	✗	✓

LEGACY FEE CAP ENDS 12/31/2023
